

Action Taken Report on Student Satisfaction Survey (SSS)

Conducted by: IQAC, GDC Darlaghat

Introduction

This report outlines the actions taken in response to the findings of the recent Student Satisfaction Survey conducted at GDC Darlaghat by IQAC. The feedback received from students has been instrumental in identifying strengths and areas for improvement within the institution.

Summary of Actions Taken

- The college administration has initiated the process to upgrade the existing computer lab facilities by acquiring new computers.
- A dedicated team has been assigned to enhance cleanliness standards across the college premises, including regular checks and maintenance schedules.
- Faculty members have been encouraged to assign daily homework to reinforce learning and ensure regular study habits among students.
- The administration is exploring options to convert underutilized spaces within the college into additional classrooms.
- A committee has been formed to assess the current state of the canteen and campus grounds. Plans for renovations and upgrades are being developed.
- A painting project for the college walls and common areas has been approved to create a more inviting atmosphere.
- Collaborating with the HPSEB to ensure a consistent and reliable electricity supply throughout the campus.
- The library is in the process of expanding its collection to include more contemporary and diverse resources, with a focus on student interests.

Conclusion

The IQAC is dedicated to fostering ongoing enhancement in the educational landscape at GDC Darlaghat. The initiatives listed above have been directly informed by student feedback, and we will continue to evaluate their effectiveness to better serve our students. We value the insightful contributions from our students and are eager to create an even more supportive and enriching academic environment.
